Re: Case No. 2012-00169

Dear Mr. Derouen:

In accordance with Ordering paragraph 5 of the Commission's Order dated December 20, 2012 in the above-referenced case, please find enclosed for filing with the Commission East Kentucky Power Cooperative, Inc.'s ("EKPC") monthly status report relating to EKPC's integration into the PJM Interconnection, LLC ("PJM").

The following items are included on the attached CD:

- Docket No. ER13-793-000—March 28, 2013—Approval of EKPC's Transitional Fixed Resource Requirements Plan and granting of requested waivers with respect to all significant provisions of the Reliability Assurance Agreement.
- Docket No. ER13-1177—March 28, 2013—Revisions to the PJM Open Access Transmission Tariff, Operating Agreement, and Reliability Assurance Agreement
- Docket No. ER13-1178—March 28, 2013—Revisions to the PJM Consolidated Transmission Owners Agreement
- Docket No. ER13-1179—March 28, 2013—Submission of PJM Service Agreement Nos. 3517 and 3518
- Docket No. ER13-1251-000—April 3, 2013—PJM's Application for Waiver of the Initial Allocation of Financial Transmission Rights and Auction Revenue Rights for EKPC.

EKPC's final awards from the Auction Revenue Rights ("ARRs") auction, including all stages and rounds, resulted in EKPC receiving a total of 1918.1 MW of ARRs for 2013/14 Delivery Year into the EKPC load sink. Of that total, 1,778.1 MW are from the Spurlock source to the EKPC load sink, 131.9 MW are from the Smith source to the EKPC load sink, and 9 MW are from the Dale source to the EKPC load sink. EKPC also received 17.6 MW from the Spurlock source to the Duke Energy Ohio Kentucky ("DEOK") load sink. EKPC plans to convert a portion of these ARRs to Financial Transmission Rights (FTRs) during the FTR auctions during April.
